two\_way\_audio1.gcm\_diagram \*three\_way\_audio\_form.gcm\_diagram

Diagram Description: The diagram illustrates a central 'Connection' node (represented by a computer monitor icon) acting as a hub. It is connected to several other components via 'Is Attached' relationships:

- Physician (Left):** A 'Physician' node (person icon) is connected to the 'Connection' node.
- Patient Record (Top):** A 'Form' node labeled 'Patient Record' is connected to the 'Connection' node. Its properties are: [textFile, NonStreamFile, VideoFile], send, default, and <...>.
- Audio Streaming (Bottom):** A 'Form' node labeled 'audio streaming' is connected to the 'Connection' node. Its properties are: LiveAudio, <...>, and start audio.
- Devices (Right):** Two 'Device' nodes (mobile phone icons) are connected to the 'Connection' node. Each device node has two 'false' values associated with it.
- Physicians (Far Right):** Two 'Physician' nodes are connected to the 'Device' nodes via 'Is Attached' relationships.
